

Producing Solutions Yesterday, Today and Tomorrow

August 25, 2008

To Our Valued Customer:

As gas prices reach record highs, the components that we utilize in manufacturing are rising as well. Freight, utility, labor, and resin costs continue to increase at record levels. DFW has been proactive in taking measures to minimize these costs and to provide quality products.

However, effective October 1st, DFW must issue a price increase on **B & C & F SERIES** products to help offset the increasing costs that we are experiencing. You will be able to access the new October 1st Price List for **B & C & F SERIES** after September 20th at www.dfwplasticsinc.com.

All orders that ship by September 30th will be invoiced at current pricing levels. Any orders shipped after September 30th will be priced at the October 1st pricing.

We appreciate your business and look forward to a successful year in 2008. If you have any questions please feel free to contact myself or your local DFW representative.

Best regards,

DFW
