

# Heavy Duty | Polymer Rectangular Meter Boxes

## Features & Benefits

Features	Benefits
1. All Polymer Construction	Heavy Duty Boxes are made of engineered polymer designed for specific use as water meter boxes. Polymer is blended to accommodate extreme weather conditions and withstand constant ground movement.
2. Concrete Replacement	Heavy Duty Boxes are designed to replace existing concrete boxes of similar dimensions, but offer more working room inside the box for repair and maintenance of the meter.
3. Thick Flange	Heavy Duty Boxes have a thick flange design at the top of the box that resists pinching of the lid and settling of the box after installation.
4. Exterior Pocket	Heavy Duty Boxes have an exterior pocket design at the bottom of the box that resists settling of the box after installation.
5. Tapered Wall	Heavy Duty Boxes have a tapered wall to accommodate for ease of adjustment in the field without having to dig the entire meter box out of the ground.
6. Load Rating	Heavy Duty Boxes & Lids are rated for non-deliberate incidental traffic.
7. Patented Lid Design	Heavy Duty Lids patented features include options for AMR/AMI systems.
7. Locking Mechanism for Lid	Heavy Duty Boxes & Lids are available with bolt down or key lock mechanisms.
8. Colors	Heavy Duty Series are available in black, blue, purple, green, gray, or sand colors.
